

Innovation Polymix

PLASTIC COMPOUND MANUFACTURER

ISO 9001

Innovation Polymix Limited (IPM) manufactures various types of plastic compounds to serve industrial needs. We also develop compound formulations to meet specific the full range of processing requirements for automotive parts by injection molding, extrusion and vacuum thermoforming. These compounds are used in applications that require better properties than conventional PP and PE such as floor mats, floor carpet, fender, mud guard and several other parts.

IPM operation is bolstered by excellent technical support as well as good quality services from our R&D department along with plastic technical team. IPM plant is a certified ISO 9001 standard.

Types of compounds available:

- PP compounds unfilled
- PP/Talc filled
- PP/Elastomeric/filled
- TPO/TPE compounds
- Colored and Black compounds
- Valuable recycles
